Housekeeping Inspection Checklist (OSHA 29 CFR 1910.22)

Use on routine walk-throughs of work areas, passageways and storerooms, and after spills, leaks, snow or surface damage.

OSHA 29 CFR 1910.22

DATE	SHIFT
INSPECTOR	AREA / EQUIPMENT ID

Before you start

1. Mark every item OK, Defect or N/A.
2. For any Defect, correct or repair it before anyone uses the surface again. If that cannot happen immediately, guard the area to keep people off it, then note the action taken.
3. The manufacturer's instructions and your site rules may add checks to this list.

Legal basis: 29 CFR 1910.22: General requirements (Part 1910 Subpart D, Walking-Working Surfaces) Source: eCFR, Title 29, text current as of 2026-11-09 Online version and sources: https://safetyindex.blog/us/standards/1910-22-walking-working-surfaces

SECTION A | Housekeeping and floors

No.	Check item	What to look for	OK	Defect	N/A	Notes
1	Work areas Ref. 1910.22(a)(1)	Work areas are clean, orderly and sanitary, with no accumulated waste or scattered materials.	☐	☐	☐	
2	Passageways Ref. 1910.22(a)(1)	Passageways are clean and orderly, with nothing stored or left in the walking path.	☐	☐	☐	
3	Storerooms and service rooms Ref. 1910.22(a)(1)	Storerooms and service rooms are tidy and sanitary, with floors clear of debris.	☐	☐	☐	
4	Workroom floors Ref. 1910.22(a)(2)	Floors are clean and, where feasible, dry.	☐	☐	☐	
5	Wet-process drainage Ref. 1910.22(a)(2)	Drains in wet-process areas are working, and process water flows away instead of pooling.	☐	☐	☐	
6	Dry standing places Ref. 1910.22(a)(2)	At wet-process stations, false floors, platforms or mats are in place where feasible, so workers stand on a dry surface.	☐	☐	☐	

SECTION B | Surface hazards

No.	Check item	What to look for	OK	Defect	N/A	Notes
7	Sharp or protruding objects Ref. 1910.22(a)(3)	No nails, bolts, metal edges or other objects stick out of or above the walking surface.	☐	☐	☐	
8	Loose boards Ref. 1910.22(a)(3)	Boards, planks and panels are secure and do not shift underfoot.	☐	☐	☐	
9	Corrosion Ref. 1910.22(a)(3)	Gratings, plates and other metal walking surfaces show no corrosion.	☐	☐	☐	
10	Leaks and spills Ref. 1910.22(a)(3)	No pipes, equipment or containers leak onto walking surfaces, and any spills have been cleaned up.	☐	☐	☐	

General guidance only, not legal advice. Check the current regulation and your employer's procedures.

SECTION B | Surface hazards

No.	Check item	What to look for	OK	Defect	N/A	Notes
11	Snow and ice Ref. 1910.22(a)(3)	Walking-working surfaces are clear of snow and ice.	☐	☐	☐	

SECTION C | Loads and access

No.	Check item	What to look for	OK	Defect	N/A	Notes
12	Maximum intended load Ref. 1910.22(b)	The surface can support the maximum intended load, with no sagging, cracking or other sign of overloading.	☐	☐	☐	
13	Means of access and egress Ref. 1910.22(c)	Each surface has a safe way on and off, and that route is clear.	☐	☐	☐	
14	Access route in use Ref. 1910.22(c)	Employees use the provided access route and do not climb racks, equipment or stored materials.	☐	☐	☐	

SECTION D | Inspection and repair

No.	Check item	What to look for	OK	Defect	N/A	Notes
15	Surface inspection Ref. 1910.22(d)(1)	Surfaces are inspected regularly and whenever conditions call for it, and they are in a safe condition.	☐	☐	☐	
16	Hazards corrected before use Ref. 1910.22(d)(2)	Every hazardous condition found has been corrected or repaired before employees use that surface again.	☐	☐	☐	
17	Unrepaired hazards guarded Ref. 1910.22(d)(2)	Where a repair could not be made immediately, the hazard is guarded so employees cannot use the surface.	☐	☐	☐	
18	Structural repairs Ref. 1910.22(d)(3)	Any repair that affects structural integrity is done or supervised by a qualified person.	☐	☐	☐
