Safety glasses pre-use inspection checklist (US, federal OSHA)

Check eyewear against 29 CFR 1910.133 / 1926.102 and OSHA's nonmandatory Appendix B before each shift or task.

29 CFR 1910.133 (general industry) and 29 CFR 1926.102 (construction)

DATE	SHIFT
INSPECTOR	AREA / EQUIPMENT ID

Before you start

1. Check each pair before use and again whenever the task or hazard changes.
2. Take any pair that fails an item out of use and report it to whoever runs your hazard assessment.
3. Items marked Appendix B are OSHA guidance, not mandatory rule text.

Legal basis: 29 CFR 1910.133 Eye and face protection (general industry) and 29 CFR 1926.102 (construction), OSHA 29 CFR 1910 Subpart I Appendix B, nonmandatory hazard assessment and PPE selection guidance, OSHA

SECTION A | Marking and compliance

No.	Check item	What to look for	OK	Defect	N/A	Notes
1	Manufacturer marking Ref. 29 CFR 1910.133(a)(4); 29 CFR 1926.102	The frame or lens is distinctly marked so you can identify the manufacturer.	☐	☐	☐	
2	Accepted standard Ref. 29 CFR 1910.133(b)(1)-(2)	The manufacturer's documentation shows compliance with ANSI/ISEA Z87.1-2010, ANSI Z87.1-2003 or ANSI Z87.1-1989 (R-1998), or the employer has shown the device is at least as effective.	☐	☐	☐	
3	Filter lenses for light radiation Ref. 29 CFR 1910.133(a)(5); Appendix B note (4)	Lenses used against welding or cutting light are marked or identified as filter lenses, with a shade suited to the work. A tint alone doesn't count.	☐	☐	☐	

SECTION B | Condition and fit

No.	Check item	What to look for	OK	Defect	N/A	Notes
4	Side protection Ref. 29 CFR 1910.133(a)(2)	Built-in or detachable side shields are present and secure wherever flying objects are a hazard.	☐	☐	☐	
5	Snug fit Ref. 29 CFR 1926.102	The eyewear fits snugly, is reasonably comfortable and doesn't unduly interfere with movement.	☐	☐	☐	
6	Seal for dust or splash Ref. Appendix B, paragraph 6	For dust or chemical splash tasks, the protector seals to the face all the way around.	☐	☐	☐	
7	Clean, clear lenses Ref. Appendix B note (8)	Lenses are clean and not fogged. Clean them as often as conditions require.	☐	☐	☐	
8	Cleanable and disinfectable Ref. 29 CFR 1926.102	The device can be cleaned and disinfected, especially if it is shared.	☐	☐	☐	

General guidance only, not legal advice. Check the current regulation and your employer's procedures.

SECTION B | Condition and fit

No.	Check item	What to look for	OK	Defect	N/A	Notes
9	Regular maintenance Ref. Appendix B (for 1910.132(a) and (b))	The eyewear is inspected, cleaned and maintained at regular intervals so it still gives the protection required.	☐	☐	☐	

SECTION C | Wearer and combinations

No.	Check item	What to look for	OK	Defect	N/A	Notes
10	Prescription wearers Ref. 29 CFR 1910.133(a)(3)	Either protective eyewear with the prescription built in, or protection worn over glasses without pushing either set of lenses out of position.	☐	☐	☐	
11	Contact lens wearers Ref. Appendix B note (6)	They wear appropriate eye protection too. Watch for extra risk from dust or chemicals.	☐	☐	☐	
12	Face shields and welding helmets Ref. Appendix B notes (3) and (9)	They are worn only over primary eye protection (spectacles or goggles).	☐	☐	☐	
13	Electrical hazard areas Ref. Appendix B note (7)	Metal-frame eyewear is used with caution, or avoided, near electrical hazards.	☐	☐	☐
